

Getting Started

Link from homepage: www.fnbptown.com

User ID:

Provided by FNB when you signed up.

Temporary Password (first time logging in):

Last 4 digits of your Social Security Number.

The assigned Password is required to be changed at initial sign on to a minimum of 6 characters.

Your User ID can only be changed by contacting the bank.

Create a phrase that is unique and recognizable to you. This phrase will appear each time you log in.

Choose or create 5 security questions. Any suspicious activity will prompt 2 of these questions for you to answer to verify your identity. If you prefer the system to remember the machine you are logging in on mark the appropriate box when prompted and security questions will not be prompted at each log in.

Fill in your personal information when prompted. Check the box to reset your password electronically in the future.

Three unsuccessful tries with an incorrect password and answering incorrectly to your security questions will lock out the account. The screen will time out after 20 minutes of inactivity.

Accounts

View listing of accounts and current balances.

Other (Security)

Change Password & Verification Phrase

Activity History

- Provides history on changes to your online account.

Remember This Machine

- The system will remember the computer you are logging on to and alleviate the security questions being prompted each time you log into the remembered computer.

FNB On-Line

Often times your banking needs do not coincide with regular business hours. If you have access to a computer, the Bank is open with our FNB On-Line, no matter what time of day. Viewing account transactions and balances, transferring funds, and getting current deposit interest rates can be done at your convenience from your own home. Even if you are away from home, you are not far from Farmers National Bank. Anywhere you have Internet access, you have access to FNB On-Line and your accounts at Farmers National Bank.

Security Statement

Farmers National Bank understands that the security of your personal and account information is important to you. We also understand that our continued success as a financial institution relies on both our ability to offer banking services to you in a secure manner as well as your responsibility in keeping any access codes, passwords, or PINs secure. To assist us in offering these Web-based banking services in a secure manner, we employ a number of measures. These measures allow us, among other benefits, to properly authenticate your identity when you access these services and protect your information as it traverses the Internet between your PC and Farmers National Bank.
